This game is so hard. Very challenging, but in a fair way. Works on Oculus Rift with Touch. Do need roomscale setup.

Sale Price Rating 7V10. Good deal for \$1.49; Normal Price Rating 5V10.

Note: there are 2 free games on Steam VR that are very similar but this one has the most polish IMHO. Only on the second set of levels, but this game is pretty relaxing ... I'm just sitting here playing it and watching an episode of The League ... overall smooth, great with controller and entertaining thus far.. It looks like it was made in 1993

10V10, would bang. I love this game! It's so addictive!!!

It would be nice if future patches relieved us of the tedium of managing the supply chains, but I suppose that's half the battle!. warmode is different. it's an okay game but there are some fairly tedious points...

the back-n-forth between scenes to complete puzzles for example. you wander around, picking up stuff (if you manage to figure out you're supposed to and what, that is) and then trotting back to whatever scene/room you Hope that piece of junk goes to. there's not a lot to the game aside from that. some puzzles, some ho scenes... but mostly convoluted bits of wandering around wondering why you had to pick up junk. most of the puzzles are on the lowest end of skill to complete. but those that aren't, oi, what a pain in the tail feathers. luckily the hints (in the form of crosses for the main character & badges for the briefly played secondary character) are plentiful if you keep your eyes peeled. some of the puzzles are just annoying to the point of skipping them just to get a move on.

that's not even touching on the mechanics of the game being off... clicking repeatedly, Hoping to hit it in the "just right" sweet spot was definitely a tooth grinding experience.

the good points... ah well, there are some. not many but some.

the graphics are solid (if a little on the goth side) and the music doesn't make a person's ears bleed. the voice acting isn't bad.

but there are loads of other games with better Everything that are far more worth the price. so given that pretty much All the hours/time you see under my belt in playing this was spent grumbling about having to trek back Yet.Again. to some pointless spot to plug yet another piece of junk haphazardly into what i Hoped was the right spot... i can not recommend this game.

Hey there, puzzlers!. This game is a trip from start to finish, the visuals are amazing. I don't have a Vive yet, but plan to soon. One of the developers of the game was kind enough to let me play the game on his personal setup. It was awesome. Controls are great and it's really easy to get immersed in the game. If you have a Vive, pick this game up!. A good example of a properly executed room escape game genre in VR. The puzzles aren't overly difficult, but like somebody else mentioned, there are a lot of useless objects that act as distraction. There are hints available in case you get stuck, but if you really looked through everything around you, the solution should be obvious. Worth the purchase price.. Although the reviews are divided on this game I give this game a positive review.

It is a topdown shooter in which you as a seal team 12 member have to stop GOD. The levels are linear and the enemies definitely not the most difficult I've ever seen in a game. However everything works and no bugs make it a nice little game to shoot a bit around in. The story, as seen by the name of your main enemy ;), is not to be taken too seriously with its over the top writing but is at least coherent.

Don't expect to play it for many hours but in the end for the \u20ac0,98 that I picked this up it is well worth its money.
